

ASSUMPTION OF RISK REGARDING COVID-19:

An inherent risk of exposure to COVID-19 exists in any public place where people are present. The risk is higher for individuals who have not been vaccinated. COVID-19, including its variants, is an extremely contagious disease that can lead to severe illness and death. According to the Centers for Disease Control and Prevention (CDC), senior citizens and persons with underlying medical conditions are especially vulnerable. All persons should comply with federal, state, and Baltimore City orders, directives and guidelines about COVID-19 while using City facilities.

BY ENTERING AND USING THESE FACILITIES FOR ANY PURPOSE, YOU VOLUNTARILY ASSUME ALL RISKS RELATED TO EXPOSURE TO COVID-19, INCLUDING PERSONAL INJURY, ILLNESS, DISABILITY, AND DEATH.

If you do NOT agree to the above and do NOT wish to assume such risks, you should not enter onto the premises.
